

Seduta polivalente di forma libera, prodotta in vetroresina sp. 5 mm con boccole filettate alla base per il fissaggio di piedini o barre filettate. La struttura viene prima trattata con un fondo epossidico, e poi finita con una vernice poliuretanicca con colore a scelta tra la gamma RAL di Metalco.

Multipurpose free form seat, produced in fiber glass, thickness 5 mm, with threaded bushings at the base for fixing feet or threaded rods. The structure is first treated with an epoxy primer, and then finished with a polyurethane varnish with color chosen from the RAL range of Metalco.
